3 SOUTHLAND FIRES High Winds Spread Flames

Santa Ana Winds Set Off Havoc, Cut Power

Santa Ana winds wreaked havoc across the Southland today, causing power failures, fanning raging brush fires in three counties, and contributing to scores of traffic accidents but were expected to diminish by nightfall.

Gusts up to 60 m.p.h. swept desert areas and reduced visibility to zero. Two serious traffic accidents resulted in a pileup of 11 autos near the California-Nevada border, killing Mrs. Mary L. Mathias, 68, of Barstow.

Power was cut off in about 1000 homes in the San Bernardino Valley and telephone service in the De Vore area was interrupted.

"There were gusts up to 80 m.p.h. in the Fontana area that literally tore power lines to pieces," said Joseph J. Zapotocky, Edison Co. official.

Four Homes Lost; 750 Join Fight

Wind-whipped brush fires raged in three Southland counties today defying efforts of 750 fire fighters as they blackened more than 1100 acres, threatened a rock fuel plant and destroyed at least six structures.

Los Angeles and Orange County blazes were pronounced as under control or containment while the third and largest fire continued to roar out of control over 1000 acres of Ventura County.

TUJUNGA THREAT
There firemen refused to estimate when the flames might be tamed and threw into the battle about 400 men from the Los Angeles and Ventura county fire departments.

Danger of a fourth fire loomed in Big Tujunga Canyon as stiff Santa Ana winds swept the region, creating the same tinder-box conditions under which the other three fires erupted within hours of each other early this morning.

The Orange County fire was contained by about 200 fire fighters at 8:30 a.m. after consuming about 100 acres and destroying two farm structures in the Santa Ana Canyon area. Paul Morton, a volunteer fireman, suffered a fractured ankle in fighting a blaze near Yorba Linda, where 12 expensive homes were threatened but undamaged.

Counted a total loss were a barn—containing a tractor and tree spraying equipment—and a recreation room on the ranch of Art Henning, whose family successfully kept flames from damaging their home.

RUGGED TERRAIN
Companies from Anaheim, Orange and Fullerton joined in fighting the Orange County blaze, along with Civilian Conservation Corps men.

**Freighter Sinks;
Ships Back Up
In Canada Canal**

WELLAND, Ont., Oct. 14 (UPI)—A 4000-ton freighter carrying \$250,000 worth of potash sank in the Welland Canal five miles north of here today.

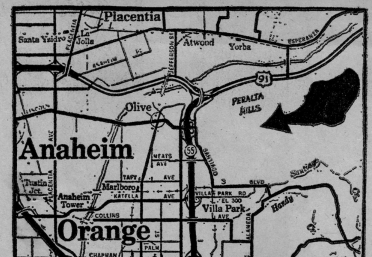

The 441-foot Stonex of Montreal went down in 37 feet of water after colliding with the Norwegian vessel Arthur Stove.

By early afternoon, 21 vessels were backed up in the St. Lawrence Seaway after authorities closed the canal.

The Stonex' 25-man crew was evacuated and no injuries were reported.

Anniversary At Torrance

Sunday will mark the 50th anniversary of a Torrance plant which has provided much of the material needed by a growing Southland and presently is carrying out a modernization program to produce even more. Details of its history and present role are on page D-12.

Sweepstakes Winners Call Richmond 8-4141

This is the last day to find your Irish Sweepstakes ticket among the winning numbers drawn in Dublin, Ireland.

The Herald-Examiner today is publishing the complete list of numbers and each one printed is worth a cash prize.

The race, the Cambridgeshire, will be run tomorrow to determine the winners of \$140,000, \$56,000 and \$28,000.

Be sure to check your ticket with the numbers printed today, and if you find it listed, verify it's a winner by calling City Editor Sweeps at Richmond 8-4141 between 8 a.m. and 4 p.m.

Setback In Market

From Herald-Examiner Wire Services

NEW YORK, Oct. 14—The stock market headed lower today in a mild setback from its previous strong rallies. Volume shrunk some 3 million shares from yesterday.

The Dow Jones Industrial Averages closed at 771.11, down 1.22.

General Motors, a stock market bellwether leader, skidded over \$3 a share, a sharp drop for this top quality blue chip stock. The decline came on rumors that GM net profits were down sharply.

(See Business Report, E-4)

Giant Walkout At GE Averted

WASHINGTON, Oct. 14 (AP)—The White House announced today the threat of a strike against the General Electric Co. next Monday has been averted.

Presidential Assistant George Christian said President Johnson had been notified by his Labor and Commerce secretaries an agreement had been reached between General Electric and 11 unions representing the company's 125,000 union employees.

The unions reportedly won at least 10 cents an hour in cost-of-living pay increases over a three-year contract, which had been one of their main demands.

But the contract, still subject to ratification by union members, reportedly contained no new arbitration procedures for settling grievances. This had been another principal demand of the 11 union combine headed by the AFL-CIO International Union of Electrical, Radio and Machine Workers.

The contract does contain what sources described as a "sharing plan" under which General Elec-

fire employees can make additional money.

President Johnson had appointed a special mediation panel including three Cabinet members, to help solve the dispute.

Oct. 24 Set As Sheppard Retrial Date

CLEVELAND, Oct. 14 (AP)—The retrial of the Sheppard murder case will open in Cleveland Monday, Oct. 24, Judge Francis J. Talty ruled today.

He denied a defense motion for change of venue, but granted a request to delay the trial from Oct. 18 as previously announced.

Powell Arrest Time Set

NEW YORK, Oct. 14 (AP)—Supreme Court Justice Wilfred A. Waite made today order the arrest of Rep. Adam Clayton Powell for civil contempt "when the Congress is in recess."

Waite made based his order on a finding by another judge that Powell was guilty of civil contempt for his willful failure to answer a Dec. 15, 1965, subpoena in proceedings connected with the collection of \$104,000 in defamation judgments against the Harlem legislator.

It was the second arrest order made against Powell. The first was in June 1964.

Judge Waite made authorized any sheriff in New York State to arrest Powell when Congress was not in session and confine him until the defamation judgments were satisfied.

Red Expelled
TOKYO, Oct. 14 (UPI)—The Japanese Communist Party Thursday expelled a leading pro-Peking figure of its central committee for publishing an "anti-party" magazine.

Southwest Faces Water Famine

Los Angeles needn't worry about water for the next 25 years, but the Pacific Southwest in general will have problems and central Arizona is approaching "a catastrophic condition" in water supply, according to local authorities.

"Arizona is overdrawing its ground water supply by two million acre-feet annually," the Colorado River, and this would be insufficient to offset even the present overdraft of ground water," Skinner told the seminar at the American Society of Civil Engineers, Los Angeles Section, yesterday.

"No substantial source of supplemental water for central Arizona is in sight, except from the main stream of the Colorado and Owens rivers, the state water project and local supplies for its water, Skinner said.

Recreation Grant

SACRAMENTO, Oct. 14 (UPI)—Gov. Brown Thursday announced a \$345,000 state grant for recreational development of the San Leandro shoreline.

2 ANTI-VIET 'LOITERERS' CONVICTED

Two men were found guilty of loitering at Union Station while handing out anti-Viet Nam War literature, but four others were acquitted today because of what the judge called an "absurd" section of the city loitering ordinance.

Judge Philip M. Newman found the four not guilty because the city law excludes persons who may be loitering in the vicinity of a business or commercial enterprise at the station.

"I am forced to reach an absurd conclusion because of an absurd exclusion," he remarked.

Convicted were Frederick A. Hoffman, 32, college inter-

viewer, and Clyde Carson, 22, student.

Those acquitted were Joshua Gould, 21; Michael Yoeff, 27; Victor Dinnerstein, 20, and Jeffrey Schmidt, 20.

Two others were found not guilty because of insufficient evidence — Michael Shomich, 20, and Romero Lugo, 19. All were arrested on Sept. 5.

Crowther Leave Extended

By JAMES A. MULLEN JR.

Herald-Examiner Staff Writer

Superintendent of Schools Jack C. Crowther, who is on a one-month sick leave, was given an extension of time off because his continuing illness, the Board of Education said today.

Board president Ralph Richardson requested an extension to Jan. 2, 1967 for Crowther "in order that he may take whatever time he feels necessary to adequately recover from a back injury."

Crowther, who is 59, is suffering from a pinched nerve in the back. He is in traction at his home, but must go to the hospital twice a day for treatment, officials said.

In his place, Dr. Louise Seyler, 59, has been named acting superintendent.

OTHER ACTIONS

In other actions, Dr. Seyler announced a racial and ethnic count of all pupils, teachers and other employees of the city schools will be taken today as part of a state-wide survey of students.

The survey, ordered by the State Department of Education, is being taken to determine if local schools are complying with state law, policies and regulations.

Although the survey will be of racial and ethnic origin, no questions are to be asked of pupils, parents or employees, officials said. Instead the survey will be a visual count by teachers and administrators.

PROVIDE DATA

Officials said the purpose of the survey is not to discriminate against minorities but to provide information which will make possible equal opportunities for all.

The Board of Education also announced the appointment of Max J. Barney as clerk of the board. The position pays a beginning salary of \$13,663.35 a year.

Aerial Show

By Norwalk

Legion Post

American Legion members of Norwalk Post 359 today completed arrangements for the two-day fly-in and aerial demonstration beginning tomorrow at the airport at Mt. Rubidoux in Riverside.

Antique and home-built flying craft will be on display, it was announced by Harry Miller, chairman of the post's aeronautics section.

The show is free and aviation gasoline will be available at the landing strip for pilots.

Woman Finds

Holdup Loot

More than \$2310 in cash and checks found by a housewife in a hedge at her home at 11958 Cohasset St., North Hollywood, were stolen from a restaurant at 13237 Victory Blvd., Van Nuys, last Aug. 29, police reported today.

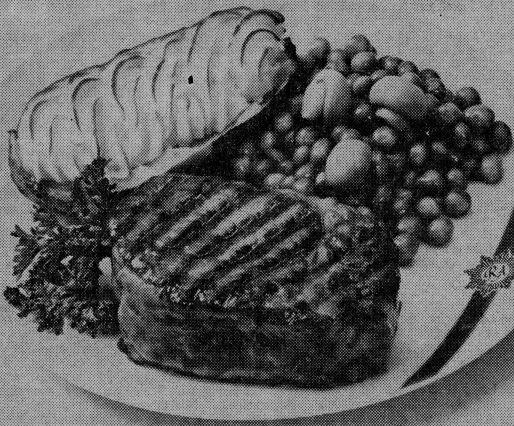

Officers said Mrs. Joanne Butler discovered the loot in a sack while gardening yesterday. Cash and check serial numbers had been reported.

Car Victims

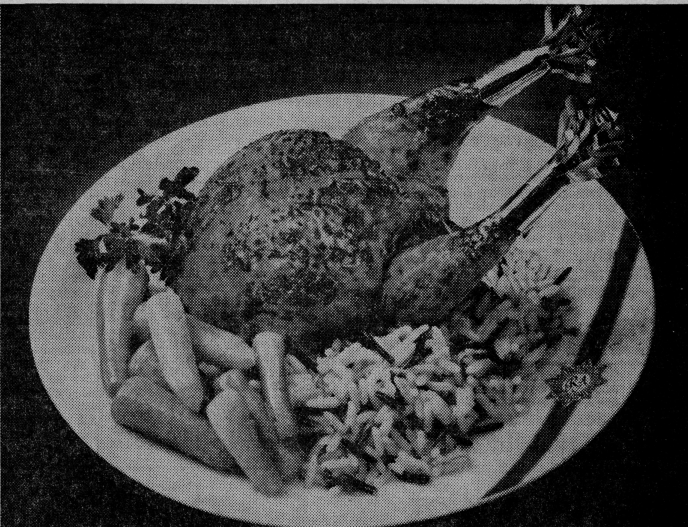

STERLING, Colo., Oct. 14 (UPI) — A conservation official notes that 21 deer were killed by automobiles in Logan County last year, 20 per cent more than were bagged by hunters with rifles.

Only TWA cooks food to order in flight and gives you a choice of 4 entrees.

Why settle for less when you fly to the East?

Why indeed? There's no better way to go places than our celebrated Royal Ambassador First Class service.

Our menu makes great reading. Take your choice of 4 delicious entrees—right on your jet, not on the phone a few days before. While TWA's ovens go to work, have a cool cocktail or two. Then enjoy a magnificent dinner, cooked to your order and served

with select still wines or champagne. Coffee and cordials top it off.

Next time you're going to the East or to Europe, fly Royal Ambassador First Class. When you join us for lunch or dinner, the extra luxury is on us—on every TWA non-stop. Call your travel agent, or Trans World Airlines at 483-1100 (for other toll-free numbers consult your directory).

TWA flies non-stop to New York every hour on the hour, 9 am to 1 pm, 5 pm and 10:45 pm. Also convenient non-stops to Detroit, Boston, Philadelphia, Washington.
